Flower and Vegetable Seed List (For Dealers)

Herbst Brothers, Inc., give for themselves or their principals, no warranty express or implied as to description, quality, productiveness or any other matter of any seeds, bulbs or plants they sell and will not be responsible for the crop.

Cauliflower Seed

**Cauliflower — Superior Snowball short stem
Herbst Special Amager Selection**

We Offer Five Prize Strains

EXPRESS SNOWBALL, about two weeks earlier than "Early Snowball." We recommend this strain....	\$9.50
EARLIEST ERFURTER, a real fine strain (the Typical Erfurter)	9.25
SUPERIOR SNOWBALL, <i>short stem</i> , special Amager selection. We are proud to offer this strain.....	8.95
SNOWBALL. Late self protecting. If you use late Snowball you have been waiting for this strain. Our grower reports its self protecting qualities unsurpassed	8.60
DANISH GIANT, Emdruphoi strain "Second to none" ..	10.50

We cannot recommend too earnestly our Amager Selection of Cauliflower Seed. Amager has for years been the most favored location in Denmark for growing Cauliflower. Our Superior Early Snowball, the famous "Short Stem" variety was developed there. We claim for this variety on the basis of actual commercial plantings, that it will produce more Number 1 heads of the prize winning type than any other strain.

Our grower has been breeding and producing Cauliflower Seed for the foremost Copenhagen Houses for years. You will be pleased with this seed.

FOR IMMEDIATE SHIPMENT

All our offerings are of high germination, the Japanese varieties grown by T. Sakata & Co., others by the most reliable European growers.

SAKATA'S FOLIAGE TURNIP (Shogoin)

Seed of Sakata's Foliage Turnip planted during the hottest, driest August showed unbelievable ability to germinate and get started; even the weakest seedlings came through splendidly. This is one reason why we recommend this turnip so highly, others are — Sakata's Foliage Turnip is louse proof;—it carries its heavy foliage erect, the tender greens come off fresher and cleaner than from any other turnip variety;—it forms a perfect pure white bulb, just a little flatter than Purple Top, but ever so much sweeter and finer grained;—the tops are succulent and produce bigger crops than Seven Top. Practical trial will prove every one of these claims and convince you that **SAKATA'S FOLIAGE TURNIP** is the best for Southern planting for both roots and tops.

This Turnip is of Japanese origin. To preserve all the valuable characteristics enumerated we grow all the seed we sell in Japan, for seed reproduced domestically under new environments has not proven itself fully satisfactory.

Price per lb. 22c f. o. b. New York.
